## PREFACE

This second permanent cumulated volume of the Education Index covers the three years July 1932 to June 1935 and supplements the bound volume for January 1929 to June 1932. There have been no changes in the general purpose and plan of the Index as stated in the preface to the latter volume. There have, however, been changes in the periodicals indexed as to title and frequency of publication. These were noted in the unbound numbers under Notes and Announcements as they occurred. Changes of title and address are indicated in the "List of Periodicals Indexed."

As with all cumulated volumes many persons as well as the editors have contributed their time and energy to make this one as accurate as possible. To all of them we extend our appreciation and thanks, but especially to Grace Gilbert Parker for her interest, faithfulness, and hard work.
